

Here's a pre-automobile jaunt down what would become Santa Fe Trail Drive. Circa 1905.

A VISUAL HISTORY OF LENEXA

Images have the ability to communicate a thought or idea instantaneously, without the need for lengthy explanation. To better tell the story of Lenexa, the Lenexa Historical Society is compiling a pictorial history of our city, and your help is needed.

While some photos of our early history have been found and recorded, the collection could be much more complete. The goal is to accumulate and then share images from the city's inception right up

to the present day. Upon request, images in the collection will be made available to residents, schools, libraries and other interested parties.

We hope you will loan or donate whatever image resources you may have. All will be handled with the utmost care.

If interested in contributing, contact the Lenexa Historical Society at 913.492.0038 or info@leglerbarn.org.

Lenexa's downtown during the early 40s. Do you have information on the person who drove the tractor to town?
